DETAILED ACTION

Priority

1. The Examiner acknowledges the remarks by the Applicant demonstrating that due to April 7th falling on a Saturday, that priority has been correctly claimed and all the conditions for receiving benefit of an earlier filing date have been met.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 2, 4 and 5 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Upon review of the newly claimed subject matter, the Examiner has found that there is no support in the originally filed specification for **a)** a pair of non-contact sensors on opposite sides of the sizing cage subsystem; **b)** the executable program instructions including a useful range determination routine which prompts user activity and which determines empirically a useful range of positions for the sizing cage subsystem; or **c)** the useful range determination routine operating by prompting a user to move the sizing cage to its inner and outer position and reading sensor data.

Allowable Subject Matter

4. Claims 1, 3 and 6-10 are allowed.
5. Claims 2 and 4-5 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, first paragraph, set forth in this Office action such that the claims contain structural limitations taught in the original specification and the claims remain dependent on allowed claim 1.
6. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to teach or suggest a blown film extrusion apparatus having an adjustable sizing cage, an apparatus for startup of the extruded film tube; means for varying quantity of air within the tube including a supply blower which supplies air to the extruded film tube in an amount corresponding to a supply control signal, and an exhaust blower which exhausts air from the extruded film tube in an amount corresponding to an exhaust control signal; a controller member including executable program instructions which define at least one control routine for automatic and coordinated control of the means for varying during starting of the tube by directing a series of supply control signals to the supply blower and exhaust control signals to the exhaust blower; and an electrically-actuable and controllable actuator for moving the sizing cage inward and outward relative to the extruded film tube, the executable program instructions including a cage position control routine which utilizes the sensor-to-tube distance to calculate a location of the sizing cage subsystem.

Response to Arguments

7. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
